Ratio

Write the ratio in two ways:

1. 5 books to 10 students
2. A dozen eggs to 36 eggs
3. 3km to 2000m

Express the ratio in simplest form:

1. P15.75 for 3 hours
2. P60 for 3 photos
3. P750 for 3 children

Express each ratio as a fraction in lowest term:

1. 45 books to 9 students
2. 180 pens to 90 bags
3. 20 bags to 5 girls

Analyze and solve:

A basketball team won 8 out of 15games. What is the ratio of the number of wins to the number of games played?

What is the ratio of the number of vowels to the number of consonants of the English alphabet?

The ratio of cows to dogs in a farm is 9 to 4. If there are 180 cows, how many dogs are there?
